CONTENTS OF VOL. IX.

Poultry, general management of,..... 103
— management of laying hens,..... 117, 118
— to make hens lay perpetually,..... 52
— replies to inquiries,..... 155
— yard engraving of,..... 124
— to prevent vermin on,..... 60, 112, 132
– notice of Bement's,..... 62
— — Boswell's treatise on,..... 12
Press for hay, figure and description of,..... 66
"President making," evils of,..... 194
Prices, true standard of,..... 153
— of wheat, comparative,..... 154
— in England,..... 183
Privet, inquiry respecting,..... 46
— — answered,..... 85
— not fit for hedges,..... 114
— correction,..... 98
Probang for cattle,..... 38
Provisions, curing and preparing for foreign market, 128
— — — for home consumption,..... 199
Pump driven by water,..... 35
Pumpkins, large,..... 189

Q.

Queries to farmers,..... 189

R.

Radish, large,..... 189
Rail-road companies, liberality of,..... 50
— — train, extraordinary,..... 157
Rape seed, inquiry,..... 57
Raspberry, cultivation of,..... 87
Rats and mice, to destroy,..... 198
Recipes—to make British oil, oil of spike, opodeldoc, &c..... 38
Rhubarb, account of,..... 134
Rocks, chemical composition of,..... 90
Root crops, very large, state premiums on,..... 27
— — successful experiments and remarks,..... 36
— — value of, for cattle,..... 36
Roses, list of fine varieties,..... 37
Rotation of crops, adopted by F. Woodward,..... 68
— — great advantages shown,..... 84
— — want of in U. S.,..... 109
Rowen or fog, meaning of,..... 78
Rust in wheat, prevented by charcoal,..... 106
— — causes of,..... 143
Ruta baga, premium crop,..... 27
— — how taken care of,..... 46
— — preserved by covering with plow,..... 98
— — to prevent taste of, in milk,..... 89
Rye, increase,..... 152

S.

Saffron, culture of,..... 123
Salt, fraud in the manufacture of,..... 33
— best for dairy use,..... 168, 195
— American, purity of, and remarks on its importance,..... 139
— repels insects from corn,..... 118
— — ineffectual,..... 189
— as manure, detail of experiments,..... 65
Sandy soils, management of,..... 45
Sawdust burned as fuel,..... 110
Sawmill, Page's portable,..... 46, 59
Scab in sheep, history and remedy, with figures,... 54
Scrap book,..... 160
Season and prospects,..... 80
Seeds, foul, remarks on vending,..... 98
Sheep, winter management of,..... 31, 147
— extraordinary fecundity,..... 10
— feeding at stacks,..... 30, 114
— period of gestation in,..... 59
— fat, notice of,..... 60, 84
— hoof cutter for,..... 70
— management of,..... 81, 197
— — and breeding,..... 129, 114
— — in summer,..... 99
— barn, figure and description of,..... 97
— hay box for feeding,..... 81
— to make hay pens for,..... 81
— feeding oats in sheaf, objected to,..... 81
— importance of salting,..... 99
— take out the bars for!..... 99
— cost of wintering,..... 159, 192
— remarks on wintering,..... 160
— premiums at state fair on,..... 172
— sale of South Downs,..... 184
— — — — and Cotswolds,..... 13, 21
— weight of South Downs,..... 141
— account of South Downs,..... 19
— Cotswold, productive,..... 121
— Paular Merino,..... 162
— Merino ram figured,..... 51, 129
— discussion on,..... 146, 191, 192, 197
— foot rot in,..... 136, 200
— how to alter males,..... 200
— disease in,..... 104
— black leg in young Liecester,..... 84
Sheep, scab in, history and remedy,..... 54
— dogs, protection for,..... 150
— notice of "Western Shepherd,"..... 92
Shingling, improvement by painting the nail,..... 36
Showers of yellow dust, pollen,..... 28
Shrubs, ornamental description of,..... 69
— beautify the country,..... 85
Silicate of potash, nature of,..... 16
Silliman's Journal, noticed,..... 28, 75, 122, 186
— — price of,..... 41
Silk, successful manufacture of,..... 11, 94, 185, 187
— experiments at Auburn prison,..... 13
— remarks and facts,..... 39, 134
— Morris' mode of killing cocoons,..... 50
— reel, Jones', figured and described,..... 54
— reels and reeling,..... 135
— directions for reeling,..... 150
— and silk reels, report at State Fair on,..... 175
— correction as to quantity in the U. S.,..... 88
— culture in U. S. progress of,..... 39, 189
— — — — prospects of,..... 53
— — figure of Tillinghast's cocoonery,..... 39
— — G. B. Smith's new work on,..... 41
— — Morris' improvement noticed,..... 50
— — hurdles for,..... 47, 127
— — cocoons, frames, and management,..... 119
— — — to cure..... 119
— convention in New-England,..... 152
— worms, hatching and feeding,..... 87
Single coulter, figure and description of,..... 16
Slugs on cherry and pear trees,..... 22
Smoke house, description of,..... 199
Smut in wheat, experiments,..... 83
— machine, Bailey & Rich's, figured and described, 117
Soap, comparative quality of different kinds of ashes, 59
Soil of Normandy,..... 10
— improvement of,..... 186, 198
— when to be stirred,..... 14
— requisites for fertility,..... 16
— sandy, how best managed and enriched,..... 45
Soiling increases manure,..... 93
— successfully practiced,..... 184
Soot, chemical composition of,..... 91
Sorrel, how destroyed,..... 123
— culture of, recommended,..... 154
Sowing machine, price of,..... 41
— — cheap, simple, and good,..... 79
Spaying, how done,..... 14
— another mode,..... 67
Speculation in mulberry, ruin caused by,..... 50, 98
Speed of traveling,..... 10
"Spirit of the Times," noticed,..... 72, 121
Stables for preserving manure, how made..... 21

Steam generator, portable,..... 163
Stearine candles,..... 45
— from lard,..... 92, 190
Stirring the soil, when advantageous,..... 14
Stock, importation of, remarks on,..... 67
— fine, shipment of,..... 121
— proposed sale of at State Fair,..... 126
– sale of,..... 185
Stone scraper, figure and description of,..... 34
Stoves, air-tight, fuel saved by,..... 51
Straw, directions for stacking,..... 111
— contrivance for feeding,..... 114
— cutters, noticed,..... 111
— — report at the State Fair on,..... 174
— — Botts', figure and, description of,..... 196
Strawberry, cultivation of,..... 87
— beds, how managed,..... 112
— remarks on sterility in,..... 165
— Ross' Phœnix, figure and account of,..... 152
Subsoil plowing, object of,..... 93, 129
— — successful,..... 158
Sugar from the maple, to make,..... 44
— — — large quantity from a single tree,..... 59
— — the beet, want of success in,..... 60
— — cornstalks, how obtained, &c..... 92, 190
— — — premium offered,..... 94
— — — great quantity,..... 88
Sugar beet, very large,..... 21
— premium crop,..... 27
— directions for culture of,..... 73
Summer fallows, use of,..... 95
Sunflower oil, answers to inquiries,..... 93
Swine fed profitably on apples,..... 17, 42
— period of gestation in,..... 59
— preparing food for,..... 132
— altering males,..... 200
— premiums at State Fair, and Lincoln's humorous report,..... 173

T.

Table for working butter,..... 199
Thrashing machine and separator, Pitt's, excellence of, 174
— — Bostwick's,..... 137
— machines, remarks on,..... 131
— — premiums and report at the State Fair on,... 173
Tillage, soils, &c. too much neglected in agricultural papers,..... 52
Timber, remarkably preserved by blue vitriol, ... 34
— use and sale of various kinds,..... 143
Toad-flax, to destroy,..... 93, 160, 189, 195
Toads, usefulness of,..... 119
Tobacco, history, culture and use of,..... 113
— never abused enough,..... 148
Tomato raise early in pots,..... 165
— and its uses—catsup, soy, omelet, sauce, stewed, preserves, pickles, figs, &c..... 167
Transactions of N. Y. State Ag. Society,..... 75
